In no case will any person enter this area without an escort by an evidence employee. If entrance is required, personnel shall sign in/out utilizing the Entry Log. All such persons will fully comply with security procedures as directed.
2. All property, which is not issued to a department member and all evidence, found property, etc. held by the Fort Lauderdale Police Department shall be kept in designated secure areas. These areas will have controlled entry to prevent the alteration, unauthorized removal, theft or other compromise of evidence/property stored by the department and to maintain chain of custody.

B. GENERAL

1. Responsibilities:
 - a. Departmental personnel are responsible for safeguarding the property of others. All employees will properly process and secure any property which may have been confiscated or which otherwise has come under their care.
 - b. Except for evidence, contraband, etc., which will be handled according to policy, personal property of an arrested individual will be separated from the person, packaged, and appropriately identified as to owner. The package will be transported with the arrestee to the confinement facility.
 - c. All evidence/property must be entered into the FileOnQ system and submitted to the Evidence/Property Unit by the end of the member's shift, unless otherwise approved by a supervisor for exigent circumstances to include, but not limited to, weather related incidents such as hurricanes or serious employee injury. The reason for the delay, name of the supervisor who approved the delay and the method used for temporary storage will be documented in the offense report. **OR NO EXCEPTIONS WILL BE APPROVED.**
2. Procedures:
 - a. All evidence/property must be entered into the FileOnQ System. Whenever abandoned property is received from someone other than the owner of the property, the name, address, and telephone number will be recorded across the front of an Evidence Property Form. The form will be submitted to the Evidence Unit for it to be scanned and attached to the evidence case number via the FileOnQ System. Also, the person relinquishing the property will, in the presence of the impounding employee, sign the Evidence Property Form in the "Found Property" receipt section. The form will be submitted to the Evidence Unit for it to

be scanned and attached to the evidence case number via the FileOnQ System.

- b. All property taken into possession and placed into storage will be recorded in the FileOnQ System.
- c. Property recorded on an Evidence Property Form which is released before being stored should be photographed with the owner or recipient whenever possible. The Evidence Property Form is then forwarded to Records.
- d. When firearms are seized, the NCIC/FCIC number must also be entered into the FileOnQ System. The appropriate Broward Sheriff's Office Property Receipt addendum form (BSO CL#19) must be attached. This is mandatory whether or not the items are for trial or safekeeping.
